

BOOKS

HPC CODE BOOK FACTS

The HPC Code Books offer over 8,000 pages of the most state-of-the-art, up-to-date information in the security industry. The increasing use of identical codes by several manufacturers and foreign made products appearing under standard U.S. labels, created the need for a more usable format of code series and manufacturer indexing. The codes are indexed in alphabetical order by manufacturer and series. This method of dual indexing allows for easier location of code series information. Also, each page either refers to or shows you complete key cutting information. Proper key blanks by the original manufacturer, as well as the Silca, Ilco and Curtis comparatives are displayed on each code page. The proper 1200CM Code Card number, Codemax depth and spacing data number and pictorial Depth and Spacing reference page number are also presented. This information and the codes themselves are printed with easy-to-read, clear-cut graphics by a laser printer. Finally, since these code books are computer generated, annual updates containing newly produced code series can be issued and inserted quickly and accurately in the form of Code Book Updates. Annual updates are available for General, Foreign, Padlock, and Depth and Space Books.

The HPC Code Book System allows the beginner to enter the code cutting business in stages, providing the opportunity to invest in codes for a particular need, such as Domestic Automotive, Padlock Pin Tumbler, Combination Codes, General Locksmith Shop Codes, etc. For the advanced locksmith, major sets of books are available that cover the spectrum of codes used around the world.

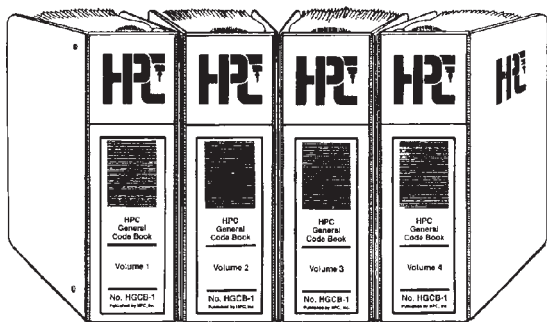

Only HPC, Inc. code books offer the total concept of code key cutting. Each page refers you to the proper key blank and shows the proper cutting specification for code cutting with the 1200CM, Codemax or other recognized micrometer machines. HPC Code Books contain usable current information often unavailable from other code manufacturers. Unlike some books which advertise quantity, HPC's books represent quality.

Yearbooks

Only the HPC Code Book system provides for long term use. Registered owners of General, Foreign, Padlock, and Depth and Space Books may receive annual automatic yearbook updates to insure that their code books stay up-to-date for years to come.

GENERAL CODE BOOK SET

LRB-103-1 (HGCB-1)

The General Code Book is a 4 volume set containing over 1000 different code series from the following manufacturers:

AMC, ARCO-RIFKIN, BRIGGS & STRATTON, BOMMER, CHICAGO, CHRYLSEY, CLUM, CORBIN, COUCH, CROSLY, CRAFTSMAN, DIEBOLD, EAGLE, ESP, FLORENCE, FORD, FORT, GM, HUDSON, HURD, ILCO, ILLINOIS, IVANHOE, JEEP, KAISER, KENNEDY, LETTERBOX, LOXEM, LOCKWOOD, MACK, MISC., NATIONAL, PACKARD, PUNDRA, RAMBLER, SARGENT & GREENLEAF, STUDEBACKER, TAYLOR, WAYNE, WILLYS, XL and YALE.

HDSB is included FREE with this set.

Due to possible copyright infringement laws, books can not be returned.

BOOKS

FOREIGN CODE BOOK SET

LRB-193-3 (HFCB-3)

The Foreign Code Book is a 3 volume set containing different code series from the following manufacturers:

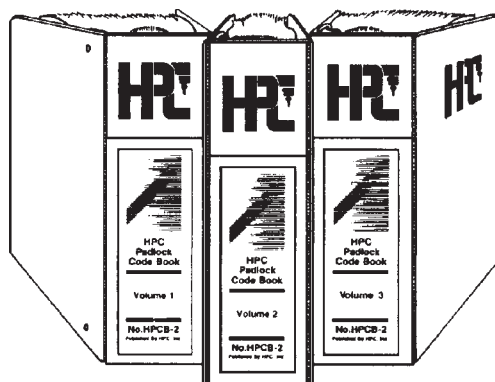

ALFAROMEO, AUDI, BMW, BRITISHLEYLAND, CAPRI, CHRYLSER, DAIHATSU, DATSUN, DELOREAN, EAGLE, FIAT, FORD, GM, HARLEY, HILLMAN, HONDA, HYUNDAI, ISUZU, IVECO, JAGUAR, KAWASAKI, MAZDA, MERCEDES, MG, MITSUBISHI, NISSAN, OPEL, PEUGEOT, RENAULT, SAAB, STERLING, SUBARU, SUZUKI, TOYOTA, VOLKSWAGEN, VOLVO, YAMAHA, and YUGO.

HDSB is included FREE with this set.

PADLOCK CODE BOOK SET

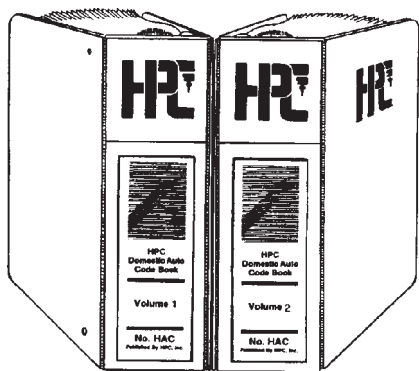

The Padlock Code Book is a 3 volume set containing pin tumbler and combination codes from the following manufacturers:

DUDLEY, AMERICAN JUNKUNC, MASTER, SLAYMASTER, and YALE

LRB-109-2 (HPCB-2)

DOMESTIC AUTO CODE BOOK SET

LRB-101 (HAC)

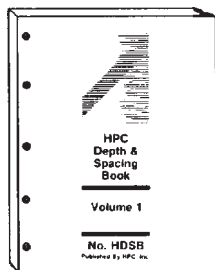

The Domestic Auto Code Book is a 2 volume book which contains all domestic car code information and imports, such as Chevrolet Geo and Dodge Colt. The Domestic Auto Code book contains information from the following manufacturers:

AMC, BRIGG & STRATTON, CHRYLSER, CROSLEY, EAGLE, FORD, GM, HUDSON, HURD, IVANHOE, JEEP, KAISER, MACK, MISC., PACKARD, STUDEBAKER and WILLYS.

BOOKS

DEPTH AND SPACING MANUAL

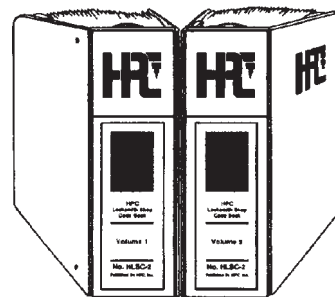

LRB-115 (HDSB)

The Depth and Spacing Manual contains over 275 manufacturer specifications, including cutting specifications of spacing and depth measurements, proper cutter wheel, jaw style, 1200CM Code Card, Codemax designation, key blank information, compatible code information and special cutting information, where applicable. Also, the Depth and Spacing Manual contains Direct Digit cutting information for manufacturers who do not utilize indirect codes that would normally be contained in our Code Books.

LOCKSMITH SHOP CODE BOOK SET

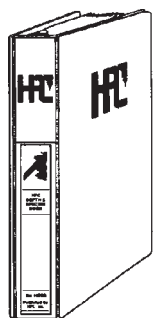

The Locksmith Shop Code Book is a 2 volume set which contains all of the non-automotive codes found in the General Code Book. The Locksmith Shop Code Book contains information from the following manufacturers:

AUTH, BOMMER, CHICAGO, CLUM, CORBIN, CRAFTSMAN, DIEBOLD, EAGLE, ESP, FORT, HUDSON, ILCO, ILLINOIS, LETTERBOX, LOCKWOOD, LOXEM, MISC., NATIONAL, PUNDR, SARGENT & GREENLEAF, TAYLOR, WAYNE, XL, and YALE.

LRB-226 (HLSC-2)

PIN TUMBLER CODE BOOK

LRB-225 (HPTC)

The Pin Tumbler Code Book is a 1 volume (non-updatable) book which contains all pin tumbler codes found in the Padlock Code Book. The Pin Tumbler Code Book contains information from the following manufacturers:

AMERICAN, MASTER, and YALE.

COMBINATION CODE BOOK SET

LRB-112 (HCCB)

The Combination Code Book is a 2 volume set which contains combination codes found in the Padlock Code book. The Combination Code Book contains different code series from the following manufacturers:

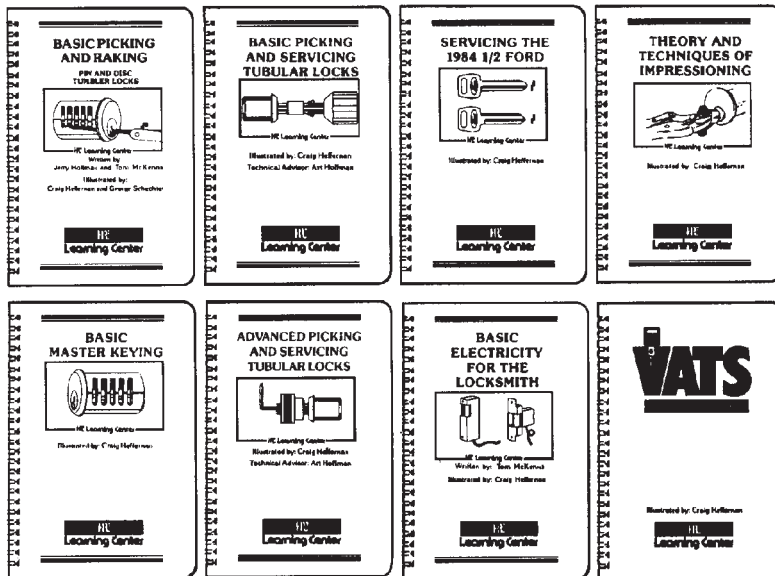

DUDLEY, AMERICAN JUNKUNC, MASTER, and YALE.

Due to possible copyright infringement laws, books can not be returned.

BOOKS

LEARNING CENTER LIBRARY REFERENCE COLLECTION

HPC

The HPC Learning Center Library is a series of technical manuals designed with the security professional in mind. All of these revised and expanded technical manuals are clearly written. They feature meticulously detailed exploded view drawings (instead of the usual 2-dimensional black and white photographs). A durable cover and wire or plastic bindings (allowing the text book to be opened flat) complement the convenient 6" x 9" format.

LRB-203 (LC-1)

Basic Picking describes in detail the theories and techniques for picking standard pin and wafer tumbler locks. All the necessary tools (such as picks and tension wrenches) are not only listed, but fully illustrated for convenient cross-reference.

LRB-208 (LC-2)

Basic Tubular Picking covers the basic theories and procedures necessary for compromising the more fundamental types of tubular locks. Both the locks in question and the necessary tools are fully illustrated and described in detail.

LRB-204 (LC-4)

The Ten Wafer Ford uses exploded view drawings to fully illustrate the mechanics of the Ford 10 wafer lock. Servicing techniques, key making methods, assembly and disassembly procedures are explained. Progression bittings are listed as is a chart for making your own set of Try-Out keys

LRB-205 (LC-5)

Basic Impressioning explains the fundamental theories and methods for making a key in this fashion. The proper technique for blank preparation (spacing), obtaining marks and the ability to recognize marks are covered in detail.

LRB-206 (LC-6)

Basic Master Keying introduces the locksmith to the theories and principles associated with master keying. Includes such techniques as 1 and 2-step Progression, Incidental Master keys, etc. all fully explained and illustrated.

LRB-215 (LC-7)

Advanced Tubular Picking picks up where its predecessor, Basic Tubular picking, leaves off. This volume describes the more complex and unusual types of tubular locks and the techniques necessary to pick them open.

LRB-209 (LC-8)

Basic Electricity for Locksmiths describes the fundamental electrical theory. This volume describes procedures which are necessary to determine the compatibility of electrical strikes, transformers, etc. through the use of Ohm's Law. Electrical components (and their corresponding symbols) as they are represented in schematic diagrams are also discussed.

LRB-210 (LC-15)

Pass Key/V.A.T.S. describes all the servicing procedures necessary (i.e. assembly, disassembly, resistance value determination, and troubleshooting) to make a correct key for a Pass Key/V.A.T.S. equipped car. Also included are fully illustrated exploded view drawings of the steering column and dash panel.

BOOKS

CAR OPENING AUTHORITY™

LRB-230 (COA-22)

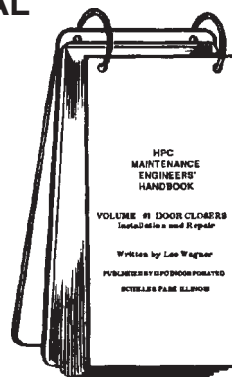

The Car Opening Authority™ is a user-friendly reference manual that includes every known type of professional vehicle entry. This manual is fully-illustrated and easily updateable. It comes in an attractive, durable binder with a clip on light to use for those all too common nighttime lockouts.

The manual is laid-out by opening style, this means that once you learn how to perform each of the opening styles, you can then open any car on the road! Each section includes all the types of specific opening styles, including a comprehensive listing of all the vehicles which can be opened with each method. Plus, it includes little tips which will make any vehicle a breeze to open.

The main index, with its simple spreadsheet format, makes looking up a specific vehicle by make, model or year extremely easy. The tool index also gives a pictorial listing of each type of tool used in the manual for a quick reference. The Car Opening Authority™ is backed by HPC's technical department, which truly makes this reference manual the AUTHORITY on car opening that you have been looking for!

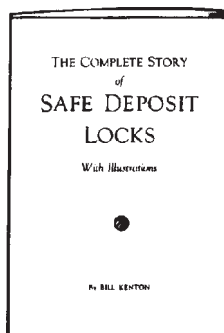

DOOR CLOSER MANUAL

The Door Closer Manual gives an extensive look at the parts, service and installation of the most widely used door closers. The manual is designed especially for "on the job" use. It is a must for the serious security hardware specialist.

LRB-216 (DCM)

STORY OF SAFE DEPOSIT BOX LOCKS

LRB-46 (SDL-15)

Contains: Open by Picking
Use of Door Pullers
Open by the Hinge Method
Open by Drilling Method
Plugging Holes and Refinishing
Classification of Types

This book explains procedures on opening safety deposit box locks. It contains valuable information for servicing locks by Bates, Diebold, Eagle, Herring, Hall, Marvin, Miller, Mosler, Remington, Sherman, S&G, Victor, Western, Yale and York

Due to possible copyright infringement laws, books can not be returned.

BOOKS

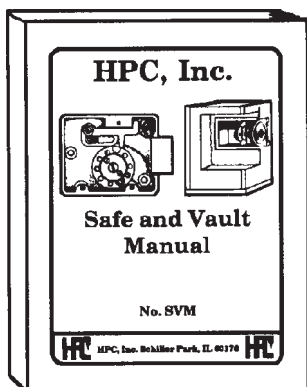

SAFE COMBINATION CHANGING

This book is a collection of original direction sheets that explain how to operate and change combinations, written by the safe lock manufacturers. It has 85 pages and hundreds of illustrations and diagrams, and covers combination changing information on most of the safe locks manufactured during the last 75 years. This book helps the Locksmith get the best results in the shortest possible time, by using the proper procedures. It includes combination changing information for Diebold, Eagle, HHM, S & G, Yale and York safe locks.

LRB-47 (SCC)

SAFE AND VAULT MANUAL

LRB-19 (SVM)

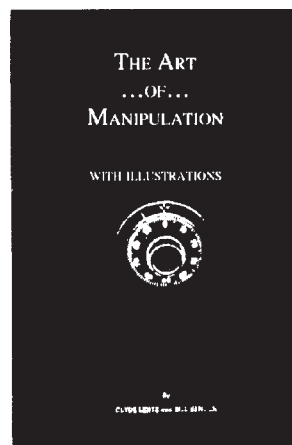

Contains: Hand Changing
Key Changing
Drilling Locations
Lock Servicing
Internal Drawings
Time Lock Operation

The Safe and Vault Manual is generally recognized as the "Safe Man's Bible". Whether you are new to safe work or an old timer interested in broadening your knowledge of safe locks, you will find this book contains valuable information covering a wide variety of safe lock topics. It contains over 250 illustrations, 1000 factory try-out combinations and a section on original factory methods of safe and vault combination changing.

THE ART OF MANIPULATION

**Open Combination Locks
Without Drilling, Burning or Forcing !!**

The Art of Manipulation is a practical work method clearly explained and easy to understand. The combination lock opening system of Hear, Feel and See is called "Manipulations". It was discovered and developed by a small group of safe experts. After much deliberation, two of these experts decided to pass on their information to other safe professionals and published this invaluable book titled, "The Art of Manipulation"

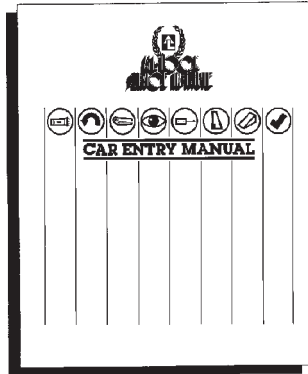

LRB-32 (TOAM-2)

BOOKS

CAR ENTRY MANUAL

LRB-217 (A7000C)

The original and best reference book on car entry. Packed with hundreds of photos, the manual shows you step-by-step how to open virtually every domestic and import car on the road quickly. Has updates 1 thru 6.

LRB-227 (A7000CU7)

Update for LRB-217

Update #7 covers 1994 and 1995. Contains over 200 numbered pages of photos and complete car entry instructions.

LRB-218 (A7000U3) Update #3 (1988)

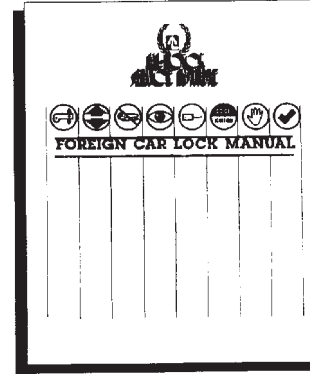

Available By Special Order

A7000CU2-Update #2 for 1987

A7000CU4-Update #4 for 1989

A7000CU5-Update #5 for 1991

FOREIGN CAR LOCK MANUAL

LRB-224 (A7000F)

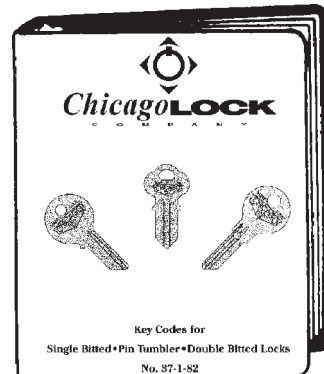

BACK BY POPULAR DEMAND. A reprint of the All-Lock Service Institute's A7000F Foreign Car Lock Service Manual. It's the most popular, widely-used foreign lock reference. Because it's the best. With over 500 pages of clear, concise step-by-step instructions on lock removal, disassembly and reassembly covering 20 different manufacturers' imported autos. And more than 900 "How To" photographs. For every model, you get vital information including Code Location, Key Blank Usage, Space & Depth Specs, Lock Plug Rotation, Code Series information, and so much more.

CHICAGO CODE EQUIVALENTS

This book has codes for single bitted, double bitted and pin tumbler Chicago locks. Published by the Chicago Lock Company, the instructions are concise and easily understood.

DOES NOT COME WITH DEPTH KEYS ANY MORE

BOOKS

SOFTWARE

To insure the latest software releases, all orders will be factory orders.

**WORK-525
WORK-350**

WORKSHOP™ CODE MANAGEMENT SYSTEM

- Completely replaces manual code books with almost 2 million computerized codes.
- Codes can be retrieved in alpha-numeric order by series or by manufacturer in less than 6 seconds.
- Displays the code, 1200CM card number, complete depth and spacing information, and 3 popular key blank manufacturers.
- Provides room to add your own codes.
- Designed to work with The Codemax™ computerized key machine for truly automatic key cutting.

QUICKKAB™ ADVANCED COMPUTERIZED KEY/DOOR CONTROL PROGRAM

**KAB-525
KAB-350**

- Holds up to 250 separate key control systems indexed on your hard drive.
- Holds up to 1 million key records, key checkouts, door hardware records and key ordering records. Have up to 100,000 registered employees per system.
- Downloads Master Key Systems from the QuickChart™ and QuickCore™ programs automatically so that re-typing of bittings is not required.
- Can support DHI nomenclature for accurate key labeling.
- Employs a powerful inquiry system to find key records, key check outs, door hardware schedules, key orders, and employee information from partially known information.
- Able to produce a complete audit trail from ordering keys to reporting lost keys for full key control.

**KEY-525
KEY-350**

KEYTRACK™ FOREIGN AND DOMESTIC KEY BLANK CROSS REFERENCE

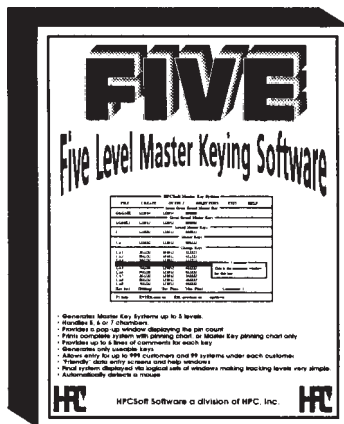

- Offers key blank cross-referencing for Curtis, Dominion, Ilco, Silca and Taylor.
- Allows you to sort according to specific manufacturer.
- Has the ability to show selected keys based on specific criteria entered.
- Able to print entire key blank cross-reference chart.
- Allows you to add new blanks, and edit existing blanks.

BOOKS

SOFTWARE

To insure the latest software releases, all orders will be factory orders.

**FIVE-525
FIVE-350**

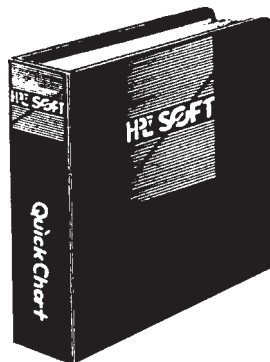

FIVE™

5 LEVEL COMPUTERIZED MASTER KEYING SOFTWARE

- Generates Master Key Systems up to 5 levels.
- Fully compatible with the Codemax™.
- Handles 5, 6, or 7 chambers.
- Provides a "pop-up" window displaying the pin count.
- Prints complete system with pinning chart, or master key pinning chart only.
- Provides up to 6 lines of comments for each key.
- Generates only usable keys.
- Allows entry for up to 999 customers and 99 systems under each customer.
- Intuitive data entry screens and help windows.
- Final system displayed via logical sets of windows making tracking levels very simple.
- Powerful worksheet for Progression Determination.

QUICKCHART™

COMPUTERIZED MASTER KEYING SOFTWARE

**QUICK-525
QUICK-350**

- Generates Master Key Systems up to 3 levels - keyed different, master key with multiple change keys, grand master over multiple masters and change keys.
- Provides room to add manual master key systems.
- Generates only usable key codes.
- Designed to work with the Codemax™ computerized key machine for automatic cutting.
- Produces a complete master key system in seconds, by answering a few simple questions.
- Allows entry of lock descriptions and builds cross keyed locks.
- Provides complete printed pinning charts.
- Will save master multiple key systems to your hard drive or floppy drive.

QUICKCORE™

REMOVABLE CORE MASTER KEYING SOFTWARE

**CORE-525
CORE-350**

- Sister system to Quickchart™ - same great features for removable core systems.
- Generates master key systems for: Arrow, Best, Eagle, and Falcon brand removable core locks.
- Records key control, calculates driver and control pins.
- Prints incidental master report, as well as pinning chart.

All software currently available for MS-DOS and PC-DOS (ver. 3.0 or higher)
