COMBINATION MAGNETIC & MECHANICAL LOCK

MS1500 630

Combination Magnetic and Mechanical Lock. 4000 lb. holding force with mechanical mandibles engaged. Case approx. 6" x 2-3/4" x 2" deep. One piece, stainless steel housing cover conceals the magnet fasteners. Separate mounting plate is included. Provides remote access and exit control of internal and external wood, hollow metal and aluminum doors. Revolutionary design allows the maglock to run on voltages from 12 to 24AC or DC. The maglock is failsafe.

See "ALUMINUM DOOR LOCKS" for more Adams Rite Locks.

MODEL 32 ELECTROMAGNETIC LOCKS

SECURITRON

MAGNACARE
LIFETIME REPLACEMENT WARRANTY

- Instant release circuit—no residual magnetism.
- Surface mounts easily with minimum of tools.
- Fully sealed electronics—tamper proof & weather proof.
- Mounted using steel machines screws into blind finishing nuts.
- Architectural brushed stainless steel finish (US32D/630).
- All ferrous metal surfaces plated to MIL specification.
- Ten feet (3.05m) of jacketed, stranded conductor.
- **UL Listed.**

Stock No	Description
SEC-M32-12	12 volts
SEC-M32-24	24 volts

Model 32 provides 600 pounds "traffic control" security—similar to electric strikes-and is recommended for applications where physical assault on the door is not expected, like access controlled interior rooms and secure areas within buildings. Primary benefits of this model are its lower cost and more compact size. Please specify voltage in 12 or 24 VDC when ordering. **Current Draw and Voltage:** 300mA at 12VDC; or 150 mA at 24 VDC. **Dimensions:** 32 magnet—8"L x 1-7/8"W x 1-1/2"H. 32 strike—6-1/4"L x 1-5/8"W x 1/2"H.

MODEL 62 ELECTROMAGNETIC LOCKS

- Instant release circuit—no residual magnetism.
- Surface mounts easily with minimum of tools.
- Fully sealed electronics—tamper proof & weather proof.
- Mounted using steel machines screws into blind finishing nuts.
- Architectural brushed stainless steel finish (US32D/630).
- All ferrous metal surfaces plated to MIL specification.
- Ten feet (3.05m) of jacketed, stranded conductor.
- Automatic dual voltage—no field adjustment required.
- **UL Listed.**

MAGNACARE
LIFETIME REPLACEMENT WARRANTY

Stock No	Description
SEC-M62	Standard Model 12/24VDC
SEC-M62F*	Face Mount Model 12/24VDC

Model 62 increasing holding power to 1200 pounds, appropriate for exterior and perimeter doors through which criminals could gain entrance to cause substantial economic loss. Entry cannot be forced without special tools, or before the door and frame actually give way. Model 62 is also available with the "G" option (special order), which adds a universal conduit for fitting for outdoor installations or surface-wired installations on concrete filled door frames. **Current Draw and Voltage:** 250mA at 12VDC; or 125 mA at 24 VDC. **Dimensions:** 62 magnet—8"L x 1-3/4"W x 3"H. 62 strike—6"L x 1-1/2"W x 2-3/4"H.

*For doors that swing into the protected area security considerations may dictate the lock mounts on the in-swinging side of the door. The "F" option provides for face mounting on the header above the door. Mounting holes are drilled through the magnet face, and wire exits the rear. The SEC-Z-62 is normally used with "F" Magnalocks.

SENSTAT—(Special Order) The lock monitors itself!! The Senstat option provides a lock status sensing signal which positively indicates that the door is secure. This interfaces with access control or alarm systems and is superior to the commonly used door position switch which indicates that the door is closed but not that it is secure. All Senstat Magnalocks use Form "C" isolated contacts.

OTHER OPTIONS ARE AVAILABLE BY SPECIAL ORDER

MAGNACARE
LIFETIME REPLACEMENT WARRANTY

Features: *Lifetime*—the warranty does NOT expire; *No Fault*—The product will be replaced by Securitron forever for any reason, including but not limited to installation error, vandalism or act of God. *Tomorrow*—Replacement product is shipped next day air at Securitron's expense if needed.

Benefits: Magnacare covers all products Securitron manufacturers. No product registration is required, if you have the product you have the warranty.

See page 216 for full terms and conditions of MagnaCare.
