

# LOCKSMITH TOOLS

## FOR NATIONAL ROCKFORD

### SUT-24 Follower and Pin Punch

Follower machined and zinc plated for smooth operation. Pin punch is plated and hardened.

SUT-0---.395" dia.

SUT-1---.495" dia.

SUT-3---.500" dia.

SUT-10---.550" dia.

These four plug followers will fit 99% of the rim or mortise cylinders and cylinder units currently in use. Made of centerless ground bar stock.

### SUT-47

Is a set of one each of the above followers.

### SUT-22 Adjustable Follower

Spring action bar. Fits all standard locks .495" to .600" in diameter. It will handle 90% of all locks. Spring loaded.

### ES-MP-120 Universal Follower and Instant Master

#### Pin Removal Tool

The ES-MP-120 has all the features of a regular following tool--PLUS MORE! This tool assures a fast and efficient method of removing just the master pins in a cylinder while leaving the top pins in place. It saves you hours of precious time in rekeying master pinned cylinders. What's more, the ES-MP-120 can also be used as a regular following tool on non-master keyed cylinders. It's as if you're getting two tools for the price of one!

## HOLLOW BRASS FOLLOWER SET

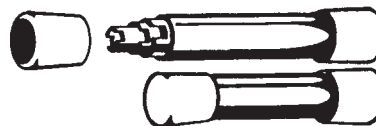

SMALL---.395" dia.

MEDIUM---.495" dia.

LARGE---.550" dia.

Case with caps on each end

### SUT-14

This set contains three popular sizes of medium-hard, zinc plated, hollow brass followers. Each fits into the other and into their case for convenient compactness and protection.

This follower kit will also work on the new style Corbin and Russwin heavy duty knob lock cylinder unit. The small diameter follower is useful for cabinet locks, peanut size cylinders and the new type pin tumbler letterbox locks.

Complete set fits into a tube with an orange cap on each end. Handy, compact, efficient and lightweight.

# LOCKSMITH TOOLS

**A-1**

## TOOL-N-ONE

MADE IN U.S.A.

### A1-TN1

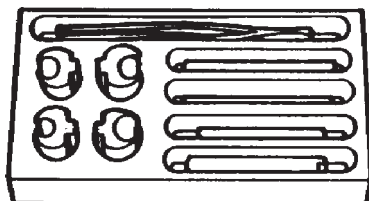

Cylinder Cap Remover & Plug Follower. For Arrow Locks. Side A also works on most Dexter, Falcon, Sargent and Weiser Deadlocks, and some AWI, Schlage, Weslock and imported cylinders. Precision Ground Black Oxide Steel.

#### SIDE A

- Removes cylinder caps from Arrow Deadlocks.
- Works with cylinder in or out of shell.
- Slides over tailbars.
- Holding pin automatically depresses when rotating to remove cap.

#### SIDE 1

- Follower for many pin tumbler cylinders with .500+ dia. plugs.
- Tapered to fit smoothly over back of various cylinder plugs.

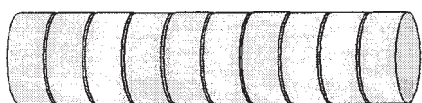

### IL-898-00-41

Plug Holder/Follower Set. Contains four followers (.395, .495, .500, .555), four plug holders (.405, .500, .510, .550), plus 6" tweezers and wooden case. These tools are made from premium steel which has been hardened for lasting wear. Each tool has a black oxide finish for corrosion and scratch resistance.

**KD-K-6 THE MASTER FOLLOWER** - This remarkable follower is a wise choice for either the newcomer or master locksmith. Made of SOLID BRASS, it will outlast those made of plastic or aluminum. The capabilities of this machined follower far exceed any follower on the market today. It can be used as a regular follower or master pin remover and follower on Schlage, Sargent, Kwikset, Weiser, Almont Padlocks and many others. Special taper allows smooth operation and better control over sticking pins. .495 diameter x 4-1/2" long.

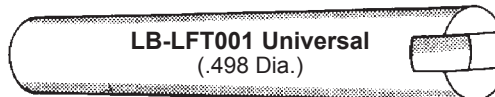

**KD-K-19 PROFILE CYLINDER FOLLOWER** - A simple but effective solution to the frustration of servicing profile cylinders. Special magnetic design for easy operation.

## FOLLOWERS

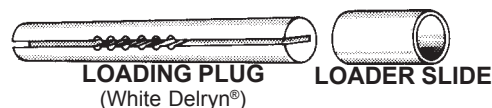

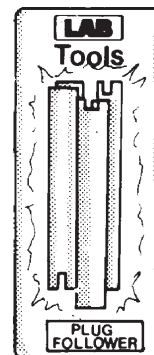

- LIGHTWEIGHT, DURABLE WHITE DELRYN®.
- REFLECTS LIGHT FOR PINNING.

## FOLLOWER SET

### LB-LFT005

- Includes: Universal, Weslock, Corbin, small plug
- These followers will do 90% of all cylinders.

**LB-LCL001 CYLINDER SHELL LOADER** - The easy way to load cylinder shells. Can be used in 75% of all .156 spacing. Includes complete "How To" instructions

**POKE/FOLLOWER**

Approximate Size Pictured.

groove for removal of wafers

Rubber O-ring

Slot for mortise cylinder plugs

Shaft for poking/probing.

**Major**  
MANUFACTURING, INC.

**SCT-2**  
The Major Poke/Follower is a combination .495" diameter follower with a stop. The follower has a .120" groove cut into the body to accommodate the removal of most wafers without having to completely empty each of the pin chambers. The rear of the follower has a .250" machined slot in order to accept a variety of mortise cylinder plugs. A rubber O-ring provides a positive stop to insure against the housing sliding off of the follower. At the other end, there is a 2" shaft with a hardened .050" tip designed to poke or probe. (Ideal for depressing retainer when removing Schlage knobs, etc.)

**kwikset**  
CYLINDER REMOVING TOOL

CYLINDER REMOVING TOOL

**KW-1467**

**ESP**  
KWIKSET CYLINDER REMOVAL TOOL

**ES-KCRT-1**  
Here is an exciting tool designed to work every time to remove cylinders from Kwikset "400" series knobsets. Made of strong tool-steel. Easy to follow, illustrated instructions included with each tool.

**LAB**  
CYLINDER CAP REMOVER

**LB-LCR 001**  
For use with Schlage, Weiser & Arrow cylinders. Depresses cylinder cap pin to remove cap in one easy turn.

**A-1** **TOOL-N-ONE**  
MADE IN U.S.A.

**A1-TN1** See previous page for description.

**HPC** **FLIP-IT™**

**FIT-2**  
When picking a lock in the wrong direction (intentionally or by error) the Flip-It™ will flip the cylinder plug past the upper pins and save the job of repicking. The Flip-It™ comes with 2 exclusive features. The two pin Quick Lock/Release feature allows for easy release of the rotating action. The sure stop feature prevents over winding in either direction.

**A-1** **PLUG SPINNER**

**A1-26**  
Frequently its almost impossible to pick a lock in the right direction, but easy to pick it backwards. Solve the problem with A-1's original Plug Spinner. When the lock is picked in the wrong direction, simply wind the spinner (left or right), set the trigger, insert the blade into the plug, release the trigger and the lock will be picked in the correct direction.

**WEISER**

**WE-1029** 3-Way Cylinder Cap Tool
