SIZE

## ROUTER-DRILL SAWS, DRILLS, ROUTS, FILES

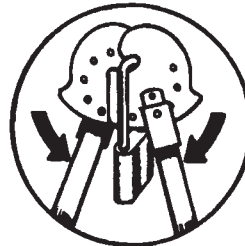

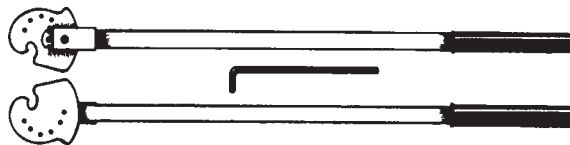

HPC

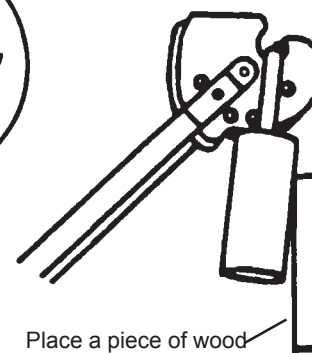

RD-1

Fits any electric drill, drill press. Cuts own starting hole in any shape or direction tool is moved. Sharp milled flutes for fast cutting action...will not clog! Ideal for enlarging holes, making scrolls. Cuts wood, plastic, non-ferrous metals. Made of hardened, tough steel for long life.

## PADLOCK BUSTER

HPC

Place a piece of wood  
under lock to protect  
wall.

PB-20

The Padlock buster is designed to open most small and medium size padlocks with shackle diameters up to 5/16". It opens padlocks with toe and heel steel locking balls, up to 1/4" diameter shackle only.

**Method 1 (Normal Padlock)**—Adjust the handle angles as shown here, by relocating the thumb screws.

**Method 2 (Larger Padlocks)**—For larger locks, use the opposite side of the cams.

**Method 3**—If the lock is not accessible by methods 1 or 2, reverse one of the cams to make a left and right hand device and use as illustrated.

REPLACEMENT PART AVAILABLE (SPECIAL ORDER)
